In **Science** this month, we learn about plants, seeds, parts of the flower, the life cycle of a plant and of course explore signs of spring.

integrate art skills into science this month with seeds, leaves, flowers, and signs of spring.

In our **Culture curriculum**, we explore the continent of Australia. While "down under" we will study the Great Barrier Reef, the outback and the biome: desert.

School Curriculum Updates:

Each year in April we begin to enjoy more time outside, plan our gardens and start the seeds, that will eventually blossom in our outdoor space. This month, our classrooms planted seeds and watched them sprout and grow

Join us

Saturday April 13 for our **Spring Gardening Event**. We will learn more about flowers, their seeds, and plant a little seed to take home! Learn about our summer plans for our gardens and watch how it will bloom here. In **art appreciation**, we discover **Homer** and several of his works "the Gulf Stream" and "The fog". We will

In music this month, Ms. Carmen continues her small group lessons with Montessori Bells and will introduce music and movement through artist and legend, Duke Ellington.
